2.1 Scope of work/Services

The Parish requires a Contractor to provide all labor and materials to provide and install 56 linear feet of 15" RCP culvert, including all necessary saw cuts to allow pipe to fit, one (1) 3’ x 3’ catch basin with 6” lid, and a cast iron grate and concrete walls to match slope of ditch. The Contractor shall also provide and install 24 cubic yards of borrow, compacted and graded to drain to the box and install sod to all disturbed areas.

Location of work site: 68095 Greenhouse Road, Pearl River, La 70452.

Specifications for the catch basin is as follows:

The catch basin is to either be cast in place or constructed out of concrete modular blocks. The lid shall be 6” thick, and include an 18” x 18” cast iron grate and be set lower than adjacent grade to allow water to drain. The catch basin dimensions are 3’ x 3’ wide and will accommodate two (2) 15" RCP storm drain pipes. The Contractor shall build a concrete wall on three sides of the box to match the adjacent grades. The walls shall be 6” thick and be pinned to the catch basin lid with #4 rebar. The work shall include all excavation, back fill and compaction of soil around box. All work shall be performed in accordance with the LA DOTD Standard Specifications for Roads and Bridges, Section 706. The Contractor is responsible for dressing any ruts or damage to the yard occurring as a result of construction at no direct pay. All debris is to be removed at no direct pay. All measurements are approximate and to be verified by the Contractor.

All work shall include all necessary signage, barricades and flagmen per LA DOTD Standard Specifications for Roads and Bridges, Section 713 and mobilization per Section 727.

The Contractor will have thirty (30) days to complete the project from the date stated in the Notice to Proceed issued by the Parish.

A Quote Guarantee is not required for this project.

Any work that may be reasonably inferred from the specifications or drawings as being required to produce the intended result shall be supplied whether or not it is specifically called for. Work, materials or equipment described herein which so applied to this project are covered by a well-known technical meaning or specification shall be deemed to be governed by such recognized standards unless specifically excluded.
