2.1 Scope of work/Services

The Parish requires a Contractor to provide the annual maintenance, repair and emergency response for the lighting system located on the entrance and exit ramps of the Oak Harbor Interchange of I-10. The poles in the median run 3125 feet NE from centerline of overpass and 3045 feet SW from centerline of overpass. CLECO Meter numbers: 099076616 and 166029875. O & M Manual will be provided.

The work specified in this project requires Contractor to monitor the system; perform monthly and preventative maintenance and submit monthly inspection reports to the Parish. The Contractor will provide a detailed written estimate of necessary repairs. The Contractor will perform repairs upon the Parish's approval of the written estimate. Payments will be made in accordance with the Proposal Rate Schedule.

A Quote Guarantee **is not** required for this project.

Any work that may be reasonably inferred from the specifications or drawings as being required to produce the intended result shall be supplied whether or not it is specifically called for. Work, materials or equipment described herein which so applied to this project are covered by a well-known technical meaning or specification shall be deemed to be governed by such recognized standards unless specifically excluded.
